From: Larry King

Subject: **FemmeNet**

To: Dawn Wright-Olivares  
CEO/President – FemmeNet, LLC

Dear Dawn,

The FemmeNet vision has been brought to my attention through one of your key team members.

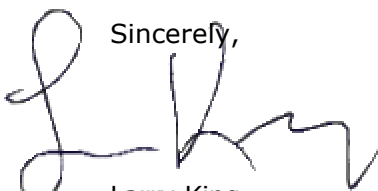

This project addresses many of today's concerns for women, children and families in general, and is very important to the individual, the family and the global community as a whole.

I am impressed with your agenda, from the development of new methods of advertising, distribution and market research into the female market segment, to income opportunities, personal empowerment and leadership seminars, youth programs, educational offerings, job banks and insurance programs for the self-employed to the Femmenet Foundation and all of the serious causes it intends to impact. I am behind your project 100% and would be happy to help in any way I can.

So many women and families today are in a state of imbalance and are seeking resources and solutions for their over-burdened and stress-ridden lifestyles, it is a project and vision whose time is long overdue.

I commend you and your team and offer you my full support and endorsement.

Sincerely,

Larry King
